

A business solutions platform

nFlows is a no-code platform that allows users to build business solutions that solve complex challenges in less time, incurring less cost and without the need for development.

No-Code Application Builder

Quickly and easily build custom solutions that solve problems across a wide variety of teams and functions without the need to code.

Dynamic Business Data Modeller

Full control over definitions, maintenance and user interface. nFlows provides traceability and understanding of data flow between users, workflows and datasets.

Business Rules Engine

Maintaining data quality and integrity with nFlows business rules engine to validate, enrich and maintain data quality flowing to and from integrated systems.

Automation and Workflow

Automate processes and data capture from integrated systems. Create, adapt and track the progress of complex workflows and quickly identify bottlenecks.

Document Manager

A single and central platform with document viewer, version control, audit trail, granular access governance and automated document categorisation.

Configurable Reporting and Dashboards

A clear view of your business from anywhere, at any time, using real-time data. Create custom analytics and reports using your own data model and workflows.

Control

Improve time to market with no-code control

Agility

Faster adaptation to changes in requirements

Efficiency

Automate processes and monitor performance

Governance

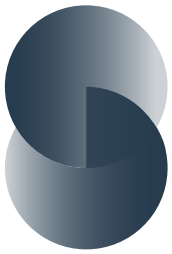

Total control over workflow, data and documents

Scalability

Big data architecture with integration through REST APIs

Low cost

Reduce total cost of ownership associated with traditional solutions

stradegi

About us

Exclusive buy-side focus

Stradegi Consulting is an award-winning, global consultancy focused exclusively on factors that impact investment products, distribution, investment research, investment process and regulation. We are a collaborative team of over one hundred specialist consultants, across six countries with one shared focus – delivering pragmatic advice and fit-for-purpose solutions to investment managers.

Financial technology expertise

Financial technology provides opportunities for investment managers to create new sources of competitive advantage. Our clients value our hands-on experience with buy-side strategy, operations, technology and governance. Since 2013, we have developed and implemented solutions for some of the world's most successful investment management organisations, helping them to build differentiation, mitigate risk and improve operational efficiency.
